## Who are Pevex?

**Pevex Enterprises** has been established for over 20 years as importers and distributors of traditional firebaskets, grates and firebacks to the fireplace industry. As the business developed fireplaces were added to the portfolio and in 2004 the first stoves were introduced to the British market. Pevex are now a major distributor of traditional and contemporary stoves distributing the Suffolk, Bohemia X, Danish Heta, French Invicta, the new British designed Newbourne and the new Keddy stoves from Sweden. Over the last few years, the brand new beautiful Serenity range of British designed and built stoves have been introduced which include many stylish and practical features offering top quality engineering and high end performance. Within our stove collection we offer many different model types which includes everything from the classical and traditional black boxes, insets, stylish designer models right through to high quality high efficiency contemporary woodburning stoves and some boiler stove options. Indeed so wide is our collection that we will be surprised if we cannot offer a stove for your requirements.

Importantly, we now have over 70 stoves which are fully approved by Defra for use in smoke control areas, giving us one of the largest collection of Defra approved stoves available from one UK supplier. We have an on-going policy of achieving further Defra approval for any new stove models that we will continue to add to our range to ensure that we meet tomorrows requirements today!

Pevex are a progressive company looking to develop and offer new and innovative heating solutions that are attractively designed, efficient and approved to meet the latest requirements. Our products are built to meet the current regulations and being mindful of possible future developments we design accordingly.

We are committed to offer you a friendly and first class level of service and advice from the first contact to make the process as smooth as possible. Deliveries are made with our own fleet of vans or supported by a national courier service to offer a fast turn-around from placement of order.

For any further questions then please contact us.

#### HETA SOAPSTONE

Both these stone claddings offer a different look, colour and feel to the stove but efficiently retains the heat energy absorbed during the heating cycle of the stove before slowly releasing the heat energy back into the room. By filling the heating chamber just two or three times, the stove will keep a room heated for up to 14 hours allowing you to enjoy the comfort and benefits of the heat long after the fire has gone out.

#### HETA THERMASTONES

Heta stoves can be fitted with upto 6 thermastones, a special cement based material that absorbs heat extremely effectively and dissipates it long after the stove has gone out - a perfect harmony with a fast heating Heta stoves.

#### ENAMEL OPTIONS

Heta has its own in-house enamelling plant enabling Heta stoves to be customised with different enamel colour options. Enamel surfaces are hard wearing and easy to clean as they are as smooth as glass and also beautiful to look at.

#### CERAMIC OPTIONS

Heta stoves can be fitted with ceramic tiles and ceramic clad options. These ceramics are made by Kaufmann Ceramic in Germany who offer a fantastic range of colour options to give a wide range of individually designed stoves.

Generally, deliveries will occur within 5 days from the order being placed but during the busy season or high stock turn-over then we may need extra time to complete the orders in full and would recommend that you talk to us.

One stove orders will attract a minimum delivery charge of £35  
Deliveries to Scotland, the Islands, Ireland will attract additional delivery charges

Please allow 4/5 weeks for any special orders on Heta soapstone, sandstone, ceramic or thermastone models, Invicta Enamels or any special frame requirements for the Serenity stoves.

Each stove brand has different warranty information which can be found in the brochures or instruction manual but generally across all the brands is that the stoves will need installing by an approved Hetas Engineer and parts such as glass, bricks and grates are considered wearing parts and are not covered.

**5. DAMAGE AND LOSS IN TRANSIT** i/ All deliveries should **immediately be inspected** and if there is any sign of damage to the packaging or suspicion that the goods inside have sustained damage, the delivery should be **rejected** and the customer shall notify the company of the same. Liability cannot be accepted if this procedure is not followed. **Note** delivery notes or PDA's marked '**goods received unchecked**' does not absolve the recipient from liability in the event of subsequently discovered damage.

ii/ The company accepts no liability for any damage to goods in transit unless notified to the company and the carrier concerned within twenty four hours after delivery.

iii/ The company's liability for damage in transit or non-delivery of goods duly notified to it in accordance with the above, shall in any event be limited solely to replacement of the goods within reasonable time, whether non-delivery or damage is due to the company's negligence or otherwise.

iv/ Items specially ordered or manufactured or not normally held by the Seller as stock will not be accepted for return or credit.

v/ Any goods accepted by the Seller for credit must be returned in re-saleable condition.

(b) The legal and beneficial ownership of the goods shall not pass to the Customer until payment in full of all sums due and owing by the Customer to the Seller in respect of the goods is received.

(c) If at the time when legal and beneficial ownership of the goods would otherwise pass to the Customer under sub-Clause (b) of this Clause sums are due and owing by the Customer to the Seller otherwise than in respect of the goods then legal and beneficial ownership of the goods shall not pass to the Customer under that sub-Clause until payment in full of all such other sums has been made by the Customer.

(d) Until legal and beneficial ownership of the goods shall pass to it the Customer shall hold the goods as bailee for the Seller but shall be at liberty to transfer the legal and beneficial ownership of the goods at the normal course of trading. or

(ii) If the goods had been attached to other goods, such proportion of the proceeds of sale of the sale of the other goods as represents the cost to the Customer of the goods supplied by the Seller attached thereto.

(h) The trust declared in sub-Clause (g) shall be void if and to the extent that a trust in the like terms arises by operation of law in favour of the Seller. The Customer hereby irrevocably appoints the seller as its attorney for the purpose of perfecting the Seller's title to any such proceeds of sale referred to in sub-Clause (g) of this Clause.

(i) The Customer shall not:

(i) pledge the goods or documents of title thereto to allow any lien to arise thereon;

(ii) deal with or dispose of the goods or documents of title thereto or any interest therein otherwise than in the normal course of trading.

(j) If the Customer defaults in the punctual payment of any sum owing to the Seller then the Seller shall be entitled to the immediate return of all the goods sold by the Seller to the Customer ( or the documents of title thereto) in which the legal and beneficial ownership has not passed to the Customer, and the Customer hereby authorises the Seller to recover the goods or documents and to enter any premises of the Customer for that purpose. Demand for or recovery of the goods or documents by the Seller shall not in itself discharge either the Customer's liability to pay the whole of the price and take delivery of the equipment or the Seller's right to sue for the whole of the price.

(k) If any provision or part of the Clause should be held unenforceable or in conflict with the law of any jurisdiction any part so held unenforceable or invalid shall be severed from this Clause and the enforceability and validity of any other parts or provisions of this Clause shall not be affected by such severance.
